

# Kelly Staples

## Operations Manager

Kelly has brought her multiple event and organizational experience to the PSM team in July of 2021 after 10 years being a small business owner in the Event and Floral industry.

Kelly is a critical thinking, creative, and a solution-oriented professional with an innate ability to cultivate connections as well as being highly customer focused and readily able to adapt and excel in a variety of situations. Her diverse acumen refined through years of Event Management, Business Management, Creative Marketing and Sales make Kelly a great asset to the PSM team.

One of Kelly's biggest assets is her years of Event Management for the LCBO in the beverage alcohol and food industry. In fact, she met her husband while managing wine tastings and food matching/cooking classes as he was a teacher! After almost 20 years, both are still as passionate about wine and food education as they were when they met!
